

The logo for Interfilère PARIS is displayed within a rectangular frame. The word "Interfilère" is written in a large, black, serif font, with the "e" having a diacritical accent. Below it, the word "PARIS" is written in a smaller, white, sans-serif font. The background of the frame is split horizontally: the top half is light gray and the bottom half is dark gray.

ENERGIZING!

Winter 2010/11 Lingerie Collections
Summer 2012 Beachwear Preview

Interfilère is the world's leading trade fair for lingerie and beachwear fabrics, and an inspiration for all fashion sectors.

Interfilère starts the dynamics for an entire chain - creation, innovation and business are always on hand - and the September edition, with 300 exhibitors expected, is already guaranteed to be **energizing** and **promising** in terms of fashion offers, services and information.

Closely tied to the reality of the profession and markets, and in complete synergy with Mode City, Interfilère is a **real value** appreciated by all.

Of 10,465 visitors in 2009, 73% were international (from 111 countries), and 87% were purchasing managers...as for exhibitors, 80% were international and 79% were long-time participants.

Exhibitors are organized into seven universes: **Lace It** (quintessential lace), **Brod'Cust** (all the magic of embroidery), **Neoskin** (the heart of the offer with knits, wovens, prints, embellishments), **Access'Folies** (a thousand and one details, including beads, braids, buttons, ribbons, closures, bra cups...), **Hi'Tech** (innovation and technology with fibres, yarns and machines), **Designers Textiles** (studios, designers), **The Club: made in Euromed** (an area devoted to production capacities near you specializing in lingerie and beachwear). Thus, **Interfilère** provides a complete, selective and top-quality offer.

MEET LINGERIE: A PLATFORM FOR BUSINESS MEETINGS

Developed in January 2010 on www.interfiliere.com, the on-line platform **MEET LINGERIE** lets exhibitors and buyers connect and organize trade fair appointments in advance.

A real prospecting tool, **MEET LINGERIE** helps buyers find new suppliers, and exhibitors find new clients and contacts. Friendly and easy to use, with each trade fair this interface is becoming an essential service to organize your Interfilière presence or to visit the trade fair in the most efficient way possible.

NEW EXHIBITORS

DESIGNER TEXTILE

KALARAV DI MELDOLESI LIVIA (Italy): A design studio working in several fields. From graphics to fashion and interior design creations, **KALARAV DI MELDOLESI LIVIA** put their analytical skills at the service of their clients' needs. Going beyond trends, the studio often produces exclusive designs for Italian and international textiles.

SALMARINA (Hong-King): Textile designer since 2005, **SALMARINA** propose collections of finely executed designs using trendy colours as well as a print collection for beachwear with printed knits and circular knits for bathing suits as well as lighter-weight fabrics in crêpe and net for pareos and beach products.

ATELIER CALISTI-LE GALL (France): The painter Marcelle Calisti, a contemporary of Raoul Dufy and Sonia Delaunay, created this atelier in 1937. Quickly renowned for her flower-filled gardens, she went to London to work as a colourist and fabric designer with the Courtaulds Group, then to Alsace with the Schaeffer Impression Group, to Germany with the Mulforter Company, and to Italy with the Miroglio Group, and the Cantoni, Satilai and Monteoliveto and Ponte Arno Companies.

Marie-Jeanne Calisti and her design team propose hand painted fabrics as well as computer-assisted designs for lingerie and ready-to-wear, and are always vigilant in upholding the atelier's reputation for style and savoir-faire

LACE IT

TRIMLACE (United Kingdom): The company, formed in 1983, specializes in creating narrow-width fabrics for sport and leisure, and lace for lingerie and 80% of their production is exported throughout the world.

The collection includes three product ranges: narrow-width decorative fabrics in solids, stripes, and prints and ribbed fabrics; heat transfer, rigid or stretch tulle; and Raschel, Jacquard and Textronic laces in braids and widths; as well as rigid or stretch printed tulle and fabrics, and knit fabrics and speciality tulle.

NEOSKIN

ASSATEX (Mexico): Founded in 1966, Assatex produces world renowned elastic knit fabrics, thanks to modern equipment and verticalisation (yarn preparation, knitting, dyeing and finishing). For ten years Assatex has worked to become a swimwear, active wear and lingerie specialist, and has recently acquired a printing facility – the only activity they lacked. They also offer high-performance cutting...

CAPITAL TRICOT (Thailand): Capital Tricot was founded in 1969 and is one of the most well-known textile businesses in Thailand. Their knits, tulle, Raschel and Jacquard laces are appreciated by major international lingerie brands. The fabrics are also used for ready-to-wear, sportswear, athletic clothing, accessories and technical fabrics.

Prints and embroideries round out their offer.

GUANGDONG HUIYI TEXTILE (China): Manufacture of solids and printed knits for swimwear, sport and lingerie.

GUANGZHOU XINSHENG INDUSTRIAL (China): Xinsheng Industrial was founded in 1988 and includes eight factories covering over 100,000m². The business specializes in manufacturing knits and elastane fabrics for clothing, interior decoration and industry. State-of-the-art German machines and experienced designers and engineers produce excellent quality fabrics which are exported around the world.

SHINKONG TEXTILE (Taiwan): Specializing in synthetic textiles, Shinkong Textile is one of the world's business leaders in the manufacturing of fashion and functional fabrics for beachwear, outdoor use, leisure wear and winter sports...

They use the latest technologies and materials for a high-performance product range.

TAI ERH (Taiwan): Tai Erh specializes in knits (nylon, polyester, bamboo, cotton...) for printed fabrics or other types on request. Since their creation in 1977, their priority has always been quality products and client satisfaction. During the last few years, they have concentrated on production technology, quality management and export.

We are pleased to welcome back:

CHANGZHOU LINGTONG KNITTING / LINGTEX (China)

INTERFILIÈRE: VISIONARY AND AVANT-GARDE!

THE “EVOLUTION” TRENDS GUIDE

Created by Concepts Paris and the Eurovet fashion team, this is the starting point for the trends, helping exhibitors participate in the General Forum and Beach Innovation Forum. The “Evolution” Trends Guide and its colour range are sent to companies when they register. Interfilère is the only trade fair in the world to give a free Trends Guide to its exhibitors.

The Guide develops the season’s themes along with the marketing information relevant to the major trends affecting consumers and markets.

This tool is also available to visitors, buyers and designers who refer to it when creating their collections. It is on sale with the colour range in the General Forum in the Shopping Corner.

THE GENERAL FORUM “DARE TO DREAM”

Set up as a welcoming corridor, the General Forum is framed by a white, luminous structure with Versailles-style chandeliers above each theme, creating a luxurious, natural, fairy-like atmosphere. At the centre, in a mixed work-rest-community mood, a giant screen presents the “Evolution” Trends Guide to inspire communication and interaction between exhibitors and buyers.

NEW! “SHORT CUT”: SMALL VOLUMES, ENORMOUS FLEXIBILITY!

Whether it’s for the launch of a label, for a young designer or for a cautious beginning of a collection, the request for small volumes of fabric is becoming increasingly essential in this period of economic crisis.

Often looked upon by weavers as a service to their clients or as a way to introduce their products, this practice is becoming more common, especially as flexibility and adaptation are real strategic techniques.

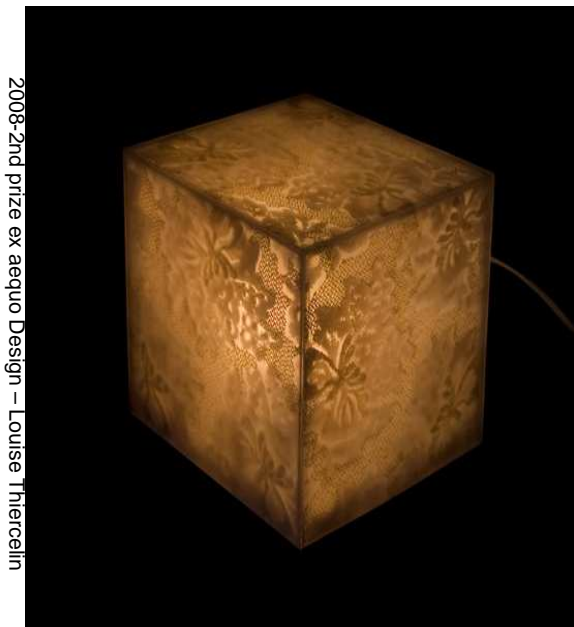

Interfilière understands this and inaugurates the “SHORT CUT” area. Located at the General Forum entrance, it presents a selection of fabrics and accessories commercialized in small quantities.

REPURPOSING, A WORK OF ART ONCE UPON A TIME THERE WAS LACE...

“REPURPOSING FABRICS”

A competition by the
Fédération Française des Dentelles et Broderies

2008-2nd prize ex aequo Design – Louise Thiercelin

For the fourth time, the **Fédération Française des Dentelles et Broderies** has organized the biennial competition “*Repurposing Fabrics*,” showcasing interpretations of lace and embroideries in new applications.

Following the deliberations of two juries made up of some thirty professionals from the lace and embroidery, textile design, fashion, trends and trade fairs sectors, 23 projects were accepted, and four received awards (two in the Fashion Category and two in the Design Category).

Through the reinterpretation of laces and embroideries, the competition’s goal was to inspire creative, exploratory work by re-thinking, re-composing, and even re-inventing laces and embroideries for unusual applications in fashion, textiles or design. It also encouraged exchanges between professionals and future designers.

Some of the creations, including the four award winners, will be exhibited near the General Forum. Interfilère, which was part of the jury, also pays homage to this historical and emblematic fabric of the trade fair.

BEACHWEAR : A MAJOR AXIS

The closeness of the beachwear labels exhibiting at Mode City means that beachwear fabrics are a **major axis** for the September Interfilière edition. The trade fair gives buyers a **preview** of the **Summer 2012** collections: Esf (France), Eurojersey, Carvico Jersey Lomellina, Junior by Adele Zibetti, Taiana Virgilio (Italy)...

“BEACH INNOVATION” FORUM

Interfilière continues the Beach Innovation Forum with its innovative and high-performance materials: vegetal and magical themes will be highlighted with a mix of genres going between the occident and the exotic in a musical ambiance. Nature, fantasy and humour animate the three themes - “Encounters,” “Fantasy,” and “Queen of Arts.”

Thanks to a collaboration of Mode City and Interfilière exhibitors, a series of prototypes will be created to showcase their respective creativity and savoir-faire.

A Preview Conference for VIP buyers will be repeated during the trade fair with an avant-première sale of the Summer 2012 Guide and colour range.
